Student work opportunity: CUB’s Yatala Brewery

An opportunity exists for approximately five months of work at Queensland’s largest brewery (at Yatala). The position is with Daesim Technologies and will involve a secondment to CUB’s Automation Team.

Duties will include a range of IT and automation related tasks such as:
- Assisting with OS upgrades (XP to Win7) on automation-related computers
- Assisting with a range of general maintenance activities related to automation and plant information systems and associated equipment
- Documentation

Requirements
- Familiarity with Microsoft operating systems (XP and Win7)
- Some software skills and experience would be an advantage
- An interest in plant automation systems would be an advantage
- Excellent communication skills
- Self organised and motivated
- Propensity for action
- High attention to detail

This opportunity would suit an undergraduate in fields such as Engineering, IT or Science.

Expected availability: 3 to 5 days per week during normal business hours
Commencement date: Late January

Please forward applications (including CV) to Don Wilkey at careers@daesim.com.
