Summer Internship with Keppel Corporation

About Keppel Offshore & Marine

With a global footprint in over 30 countries, Keppel Corporation leverages its international network, resources and talents to grow its key businesses. It aims to be a global company at the forefront of its chosen industries, shaping the future for the benefit of all its stakeholders – Sustaining Growth, Empowering Lives and Nurturing Communities.

The Keppel Group of Companies includes Keppel Offshore & Marine, Keppel Infrastructure, Keppel Telecommunications & Transportation (Keppel T&T) and Keppel Land, among others.

Keppel Offshore & Marine is the leader in offshore rig design, construction and repair, ship repair and conversion and specialised shipbuilding. Its Near Market, Near Customer strategy is bolstered by a global network of 20 yards and offices in the Asia Pacific, Gulf of Mexico, Brazil, the Caspian Sea, Middle East and the North Sea regions. Keppel Offshore & Marine is headquartered in Singapore.

Company Culture:

Regardless of nationality, culture or language, our employees worldwide embrace common values and work ethics that deliver solid performance consistent with the Keppel brand.

Our core values are represented by eight hand icons, symbolising harmony, productivity, unity and strength.

We believe that strong values will drive even stronger results for our stakeholders.

About the internship:

Interns will be posted to one of our local business units: Keppel FELS Limited, Keppel Shipyard Limited or Keppel Singmarine Pte Ltd.

They will be assigned to either the Production or Engineering Department depending on their interests and the available vacancies.

For Production Department, students will mainly be exposed to hands-on tasks as well as opportunities to go on board the rigs/vessels to have a first-hand experience of the working environment on the rigs/vessels itself. They will be assigned to a mentor whom they will be shadowing during their attachment for guidance and assignments.

As for Engineering Department, students will mainly be desk-bound. They will be mainly be handling drawings using our current systems such as AutoCad/Tribond/SM3D.

A logbook, specific to each department/yard, will be provided to the students on the first day of their internship to promote structured learning during their attachment.
