PRODUCTION ENGINEER - INTERNSHIP

Synopsis

This is an excellent opportunity for an Engineering student to join our Petroleum Engineering Team within our Operations Division over the 2015/2016 summer holidays to gain some hands-on experience to complement your engineering studies. This unique opportunity will provide you with the chance to develop your technical skills and further your personal development, setting you apart from your peers.

We are looking for a smart and motivated student currently completing their third year of undergraduate study or completing their masters in the following:

- Petroleum Engineering
- Mechanical/Mechatronic Engineering
- Chemical Engineering
- Electrical/Electronic Engineering

Reporting to the Senior Petroleum Engineer you can expect to:

- Be assigned projects to be delivered by the end of your internship; and
- Get involved in the daily production engineering activities, including monitoring wells and writing workover programs.

We have the following key requirements:

- You will be available for full time work Monday to Friday between November and February;
- You will be based in Brisbane with some travel required to our fields in Moura;
- You will need to be able to demonstrate you have:
  - Strong analytical skills;
  - Drive and enthusiasm;
  - Good communication skills and you are comfortable talking with business and technical colleagues;
  - Strong Excel skills, with VBA a bonus;
  - The ability to solve complex problems using available resources; and
  - A strong interest in a career in the oil and gas industry.

Your successful completion of this summer internship may provide you with a significant advantage for consideration for possible graduate positions in the following year.

How to apply

Please email all applications to hr@westsidecorporation.com with

- Your resume
- Latest academic transcript; and
- a supporting cover letter
**Why WestSide?**

WestSide is a Brisbane-based gas producer with gas production, significant reserves and exploration interests in Queensland.

WestSide is the operator of the Meridian gas fields which are owned by an unincorporated joint venture between WestSide and Mitsui E&P Australia Pty Ltd.

The Meridian gas fields are situated 160km west of Gladstone in Queensland’s Bowen Basin and comprise a range of assets including a petroleum lease, gas rights in a number of mining leases, production wells and gas compression and pipeline infrastructure connected to Queensland’s commercial gas network.

WestSide has approximately 50 employees located across the Brisbane and Moura offices.
