UX/UI Designer

We are a premium LED technology company Brightgreen based in Melbourne and we are looking for a Digital Designer to join our dynamic marketing team. The successful candidate will be required to work closely with our team of product designers and developers to create seamless and intuitive user experiences.

In your role as UX/UI Designer, you will be required to drive the digital design process for upcoming software launches. The ideal candidate will have an innovative approach to web and app design, backed by a strong knowledge of best practice and industry happenings. Basically, we’re after someone who lives and breathes design!

What you’ll bring to the table:

- A passion for sharing your digital design knowhow with others, paired with a strong knowledge of the digital production process
- The ability to effectively communicate design ideas to the team and external stakeholders
- The ability to work with our product design engineers to seamlessly integrate digital interfaces with key product USPs
- The skills to create impeccable concept models, site maps and user journeys
- Experience in UX/UI research, tracking and analytics
- The ability to work with backend developers and product designers to create a cohesive user experience (extra points for coding experience!)
- An understanding of how apps and websites are programmed

What we’ll bring to the table:

- A laidback, social work environment
- Free lunch daily
- A convenient Cremorne office location
- Yoga on Wednesdays

To apply, please send your cover letter and resume to nina@brightgreen.com.
