2016/17 Vacation Work Program

Hatch is an employee-owned, multidisciplinary professional services firm that delivers technical and strategic services to the Mining, Metallurgical, Energy, and Infrastructure sectors. We have served clients for over six decades with corporate roots extending over 100 years with project experience in more than 150 countries around the world.

Hatch is committed to the cause of influencing the future through innovative solutions for clients and encouraging the new generation of professionals. We are seeking expressions of interest from the Professionals of Tomorrow to undertake vacation work with us.

Key disciplines:

- Chemical & Process
- Civil & Structural
- Electrical
- Mechanical
- Mechatronics
- Metallurgy
- Mining
- Systems

Your duties may include:

- Engineering design and project work
- Site visits
- General administrative duties
- Research projects

What are we looking for?

- Students working toward a Bachelor degree in a relevant discipline
- Leadership and teamwork skills
- Analytical and problem solving skills
- An ability to think laterally and innovatively
- A passion and drive to make a difference
- Enthusiasm to work for Hatch
- A strong academic record

Interested?

To be considered for a position, we require:

- CV (be sure to include your transferable skills and extracurricular activities)
- Cover letter
- Current academic transcripts
- Completion of our online questionnaire

How to Apply

To express your interest, please visit our website at www.hatch.com/Careers and click “Students and new Graduates” to search for available positions.

Applications will strictly close on Friday 26 August 2016.
